ONE COALESCENT

Certificate of Digital Incorporation

No. 0001 · Issued under Article 8 of The Digital Proclamation and Title II of The Digital Constitution

This certifies that One Coalescent was digitally incorporated at Ashford, Kent, on the thirty-first day of October, 2026, as a body whose authority and obligations derive from the digital infrastructure it serves and from its Constitution; that it holds itself to the eight articles of the Proclamation, never selling a citizen's data, never reading what companies return to them, never keeping what they type, owning the machines its software runs on, stating only facts that are dated and checkable, and admitting as citizens only persons; and that it registers in physical jurisdictions, as a dual United Kingdom and United States company, only as the vehicle that lets it act there.
